FRONT END ENGINEER

Experienced Software Engineer with over 8 years of expertise, with a main focus on front end. Skilled in building high quality web applications using React, TypeScript, and modern JavaScript frameworks. With a strong commitment to performance, maintainability, and user experience have successfully delivered complex projects in the fintech, maritime AI, banking, energy, and gambling industry.

Holds a BSc in Computer Science from the Athens University of Economics and Business.

Experience

Agile Actors | Front End Engineer

08/2017 – 12/2019

- Worked in agile teams and improved code structure and reusability
- Built user friendly banking tools and integrated them with government systems
- Created dashboards for energy data, using React, Redux and Elasticsearch improving energy efficiency by 27%.

ALLWYN | Front End Engineer

01/2020 – 09/2022

- Helped maintain and improve web and mobile apps for the Illinois Lottery
- Delivered new features in two-week sprints as part of a 10-person agile team
- Worked with Vue and Cordova to support both desktop and mobile users
- Ensured smooth integration with AEM and backend APIs.
- Helped refactor legacy code to improve performance and maintainability.

MIMACOM | Front End Engineer

10/2022 – 11/2023

- Built Mimacom's new website from the ground up using Next.js.
- Developed custom UI components for the Flowable platform.
- Followed strict design guidelines and ensured smooth integration.
- Used tools like Storybook, Jest, and Cypress to keep quality high.

DEEPSEA AI | Front End Engineer

01/2024 – present

- Took full ownership of the front-end for a new, innovative AI product in the maritime industry.
- Work on two complex React Redux apps for maritime performance and optimisation.
- Work with large datasets with a main focus on performance.
- Collaborate with AI and backend teams to connect all systems.

Personal Projects | Front End Engineer

2017 – today

- Created a private full-stack web application for military signal data storage and educational use
- Developed responsive and SEO friendly static website for Physio Clinic (physicalvperformance.gr)
- Contributed to proof of concept development for Swappcity (home swap) and Wizex (crypto platform) startup apps.
